MICHAEL KING: SOLO ART SHOWCASE

Michael King emerged on New York's mid-century modern art scene inspired by painters such as Willem de Kooning, Franz Kline, Jackson Pollock, and others. Now, thanks to a new wave of abstract expressionists, this style of painting is enjoyed by art lovers on a global scale as Michael has shown his works globally in recent years.

These paintings are intended to provoke warm, vibrant emotions and to inspire in the viewer a boldness in the enjoyment of life. Michael King Solo runs through October 15th in our newly-renovated Pigment Gallery.
